

Natural Florida

The Eco Friendly Way

You will experience our central Florida wildlife in a completely natural environment. The majority of our journey will be exploring the back waters on board our new 35 foot, electric hybrid cruising catamaran.

The tours are memorable whether it is in the winter when numerous migratory birds visit these protected waters, or during other seasons of the year when the many indigenous animals may be seen.

Come and explore one of Florida's great natural treasures with us.

Amenities & Considerations

Safety is important to us - in inclement weather or high winds we may postpone or cancel the cruise.

There is a bathroom onboard and we offer a variety of soft drinks during the cruise.

Dress appropriately as it is always cooler on the river both winter and summer.

The Swamp House Restaurant and Happy Snapper Tiki Bar are located a few steps from our dock - or bring your own food and picnic at our dockside tables.

We are located at Highbanks Resort & Marina. It is rarely crowded at the marina or on the boat. There are no long lines or entrance fees.

Leashed, well-behaved, under 40 pound dogs are welcome as are service animals.
